TOKENOMICS

# TOKENOMICS: TAX SYSTEM

---

1%

---

## LIQUIDITY

In order to ensure a healthy liquidity pool with decreased price fluctuations over time.

---

3%

---

## DEVELOPMENT/MARKETING

Raise funds to ensure we have enough cash flow to continue developing, pay for operational expenses, and give the Divine Inu project a chance to market its products along the journey

---

4%

---

## DIVINE FUND

The backbone of the project, funds are taken to invest in other projects, tokens and NFT's.

This benefits the whole blockchain ecosystem and provides another layer of value for our stakeholders

---

1%

---

## REFLECTINS

As a reward for our holders, 1% of each transaction will be distributed as Bitcoin (BTCB)

As part of our dynamic approach, the development and fund taxation go to one wallet, which is then split according to the stage and need of the project.

# INITIAL TOKEN DISTRIBUTION

FOUNDERS 5%

EXCHANGE LISTING 5%

DAO 20%

PRESALE 35%

LIQUIDITY POOL 35%

# DIVINE FUND

The backbone of the Divine Inu project.

# DIVINE FUND PRINCIPLES

## MISSION

In addition to providing liquidity and funding, we also assist with governing digital assets.

We do not do this only for the monetary gain of the company and our stakeholders, but also for the advancement of web3, DeFi, NFT and the entire field of cryptography.

The Divine Fund is a development, investment and reward-generating fund managed by the core team. Inside it contains an index of tokens and NFT's from various blockchain and cryptocurrency projects.

Any tokens or coins captured as a result of our project or it's tokenomics are deposited into this fund and provide another layer of value for the investors and the project.

As long as blockchains remain in operation, one thing will not change: Seed and private sale investors enjoy the most benefits. By using our contacts and expertise in the crypto space, we can leverage this fact to our advantage. To further compliment this, we'll also be adding a stable of blue-chip cryptocurrencies and finishing up with altcoins.

By staking \$DIVI— our native token, the investor is given the right to dividend payouts from the fund as well as getting NFT's unlocked and eventually sent to his or her wallet.

— THE FUTURE OF VENTURE CAPITAL

# DIVINE FUND THE RESERVE

Unlike the fund, which aims to maximize yield for its investors, the Reserve aims to support our community growth initiatives and other activities solely aimed at growing our user base.

The Reserve will be empty at the beginning of the project, but tokens will be bought back over time and used for the above purposes.

Twenty (20%) percent of the total supply is locked in the DAO wallet. The Reserve will remain running until we have completely transitioned to a decentralised autonomous organisation.

# DIVINE FUND FUNDING

Projects may apply for funding from the Divine Fund.

The investment will take place if, following a proper risk management process, we believe the potential outweighs the risk, in which case we will invest in the project and receive their native token in exchange and stash them in our fund.

NFT

Metaverse Presence

# NFT PRINCIPLES

## MISSION

According to estimates, the NFT market is currently worth around \$5 billion per year, and it is expected to grow at a double-digit rate.

We aim to participate in this market and invest in it.

# NFT DIVINE INU

As an owner of the limited edition NFT, the investor will have access to the exclusive telegram channel where he/she can participate in private sales, seed rounds, giveaways, and receive merchandise that the regular holder cannot.

A total of 101 Divine Inu NFTs will be created during the project's life, 50 of which will be sold and 50 that will be available through staking and farming.

Investors will be able to acquire NFTs on a very simple basis - either by staking their native tokens or by bidding for them at auction

A royalty of 9 percent of any future trades will be retained in the contract to be used for further development of the Divine Inu project.

All 101 Divine Inu NFTs that will be minted will be unique.

In addition to the tax-free and already minted NFT - created for display purposes - the starting price will be 1 BNB (Auctions) for all future mints.

# COMMUNITY

Description on our DAO and community ambitions.

# COMMUNITY PRINCIPLES

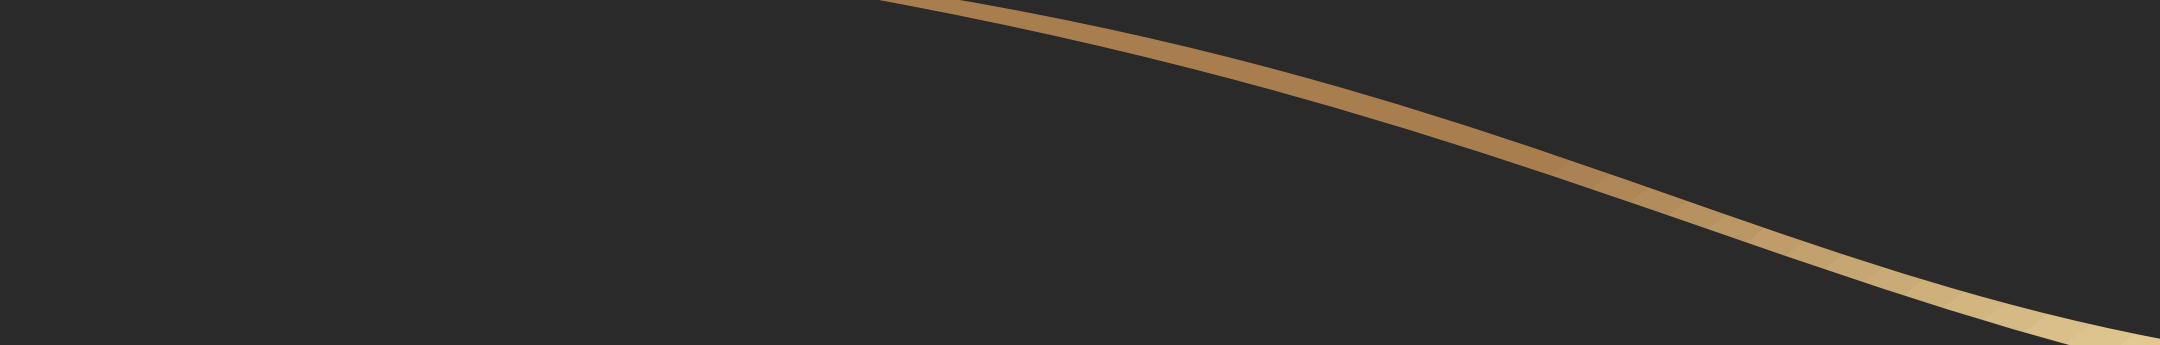

## MISSION

We want to build a strong base of holders and a loyal community that together will make Divine Inu spectacular.

It's due time for a project to take some responsibility and aim to change the trajectory that our beloved BSC currently are heading towards and have been for the past couple of years.

We believe a DAO driven by a community can deliver far superior results than a limited group of people, which is why we are aiming to become self-governing and driven by the community.

In due time the organization will be self-governing. There is no leader or authority, we will be governed by our \$DIVI tokens

New members must buy tokens in order to have a say in the DAO, and the more valuable the DAO, the more valuable the token.

This promotes gamification among the community members.

From day one, any skilled community member that can bring value to the project will be compensated for it.

Any innovative idea can be put forward and turned into reality with our DAO ambitions.

AMAs with existing and upcoming projects to spread awareness and knowledge.

Earnings from these AMA's will go straight back into the Divine community in forms of giveaways, competitions, and payouts to community members that bring value to our project.

— COMING TOGETHER IS A BEGINNING.  
KEEPING TOGETHER IS PROGRESS.  
WORKING TOGETHER IS SUCCESS

# LEGAL DISCLAIMER

This Whitepaper is intended to provide readers with general information and documentation only. You should not consider any information in the Whitepaper legal advice, business advice, financial advice or advice of any sort. Any actions motivated by or based on the contents of this Whitepaper are taken at your own risk.

Risks in acquiring / holding #DIVI and/or other digital assets should expect prices and values to fluctuate widely and unpredictable. The investors should understand that #DIVI and/or other digital assets obtained can lead to total loss of money and/or value.

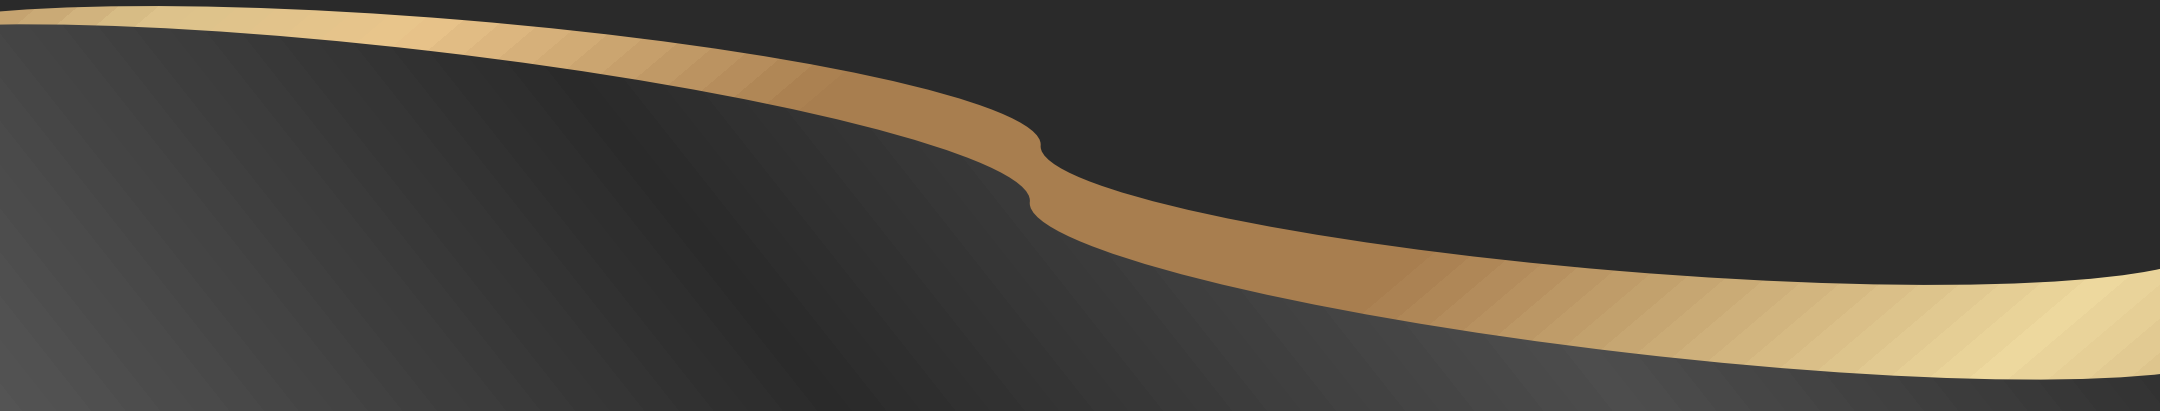

There is no deposit insurance available or other protection available for #DIVI. Holders of #DIVI may also not be able to recover the value of #DIVI if the market collapses, fails or suffers from a cybersecurity hack.

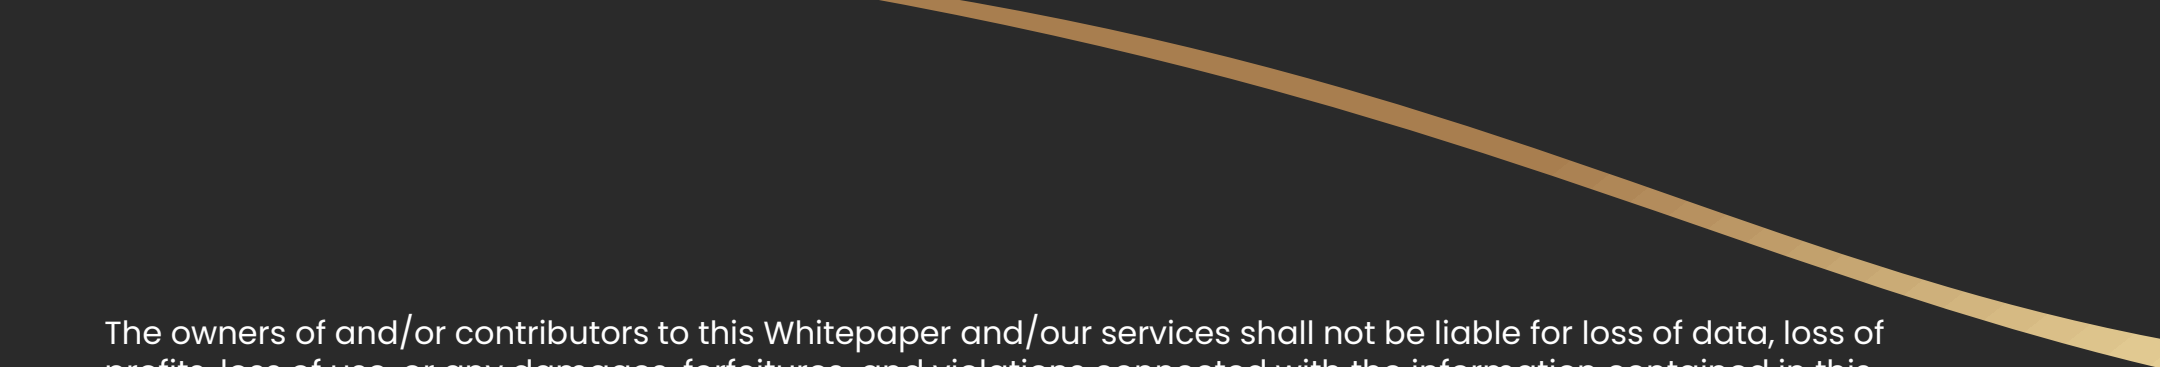

The purchase and use of #DIVI must not be done speculatively. #DIVI could be affected by emerging technology, including but not limited to, quantum computing.

These technological breakthroughs could result in security breaches and/or theft. Tax Obligations: Users are solely responsible to determine what, if any, taxes apply to transactions made with #DIVI and trades or transactions conducted with Divine Inu.

The owners of this token or contributors are NOT responsible for determining the taxes that apply to transactions made with #DIVI or trades conducted through in any jurisdiction. Divine Inu team does not condone, encourage, or knowingly facilitate tax avoidance in any form, or in any jurisdiction.

No Warranties. All content, data, resources, and services provided in this Whitepaper are provided "as is" without any warranties of any kind.

The owners of and/or contributors to this Whitepaper and/or our services shall not be liable for loss of data, loss of profits, loss of use, or any damages, forfeitures, and violations connected with the information contained in this Whitepaper or on the platform.

Anyone intending to acquire #DIVI must be mindful that the business model and the information in this disclaimer may alter or require modifications as a result of emerging regulatory and/or compliance requirements from any jurisdictions.

Under these circumstances, anyone intending to acquire #DIVI understands that neither nor any of its subsidiaries and/or affiliates shall be held liable for any loss or damages caused by such changes.

This litepaper is provided for your information only and under no circumstance should #DIVI be considered an investment and, although the team will, to the best of its ability, proceed with the project as described within this Whitepaper, unforeseen circumstances might cause the project to change, or end altogether. #DIVI can at no time be considered an official, or legally binding, investment of any form.

Purchasing #DIVI is done at your own risk.

Acquiring #DIVI carries various risks, including the risk that we may not be able to fulfill the described roadmap.

Before acquiring #DIVI, you should carefully consider the risks, expenses, and benefits of purchasing #DIVI and if necessary, obtain independent advice in this regard.

Any interested individual who is not in a position to accept or understand the risks associated with the activity, including any risk related to the non-fulfillment of the roadmap, or any other risks as indicated in the Whitepaper, should not acquire #DIVI at any stage. #DIVI purchases are final and non-refundable. #DIVI tokens are not securities and do not have a particular value.
